Why the Y?

At the Y we build strong foundations in the early years to ensure children begin school ready to learn.

- STEM (Science, Technology, Engineering, Math) components are built into various activities throughout the day.
- Focus is put on the whole child - We encourage academic, physical and emotional growth.
- HEPA (Healthy Eating & Physical Activity) Standards are modeled and taught, laying a foundation for a healthy lifestyle.
- Children are not the only ones learning - We offer continuing education for our teachers as well.
- Family Oriented Care - We welcome parents and guardians to stop by and visit their child throughout the day. You can have lunch or play with your child! We also host family events throughout the year!
