

STATELINE FAMILY YMCA IW GROWING TREE 2023/2024 General Information

PHILOSOPHY

We are dedicated to providing high quality professional instruction to preschool children. Creating strong emotional bonds between the child, their peers, teachers and families is our primary focus.

We understand that children develop at different rates and incorporate that belief into our program. We provide many opportunities for children to engage in developmentally appropriate activities to support their learning. Children are encouraged to use their creativity, develop new skills, work and play with peers, and build positive relationships with adult role models.

PROGRAM GOALS

- To promote social, emotional and cognitive growth through "hands on" experiences offered within curriculum.
- To provide a nurturing, relaxed environment where self-esteem, decision making, independence and self-regulation can be learned.
- To provide an opportunity for children to appreciate all aspects of diversity in themselves and others.
- To encourage cooperation and growth of interpersonal relationships while building trust with others.
- To provide clear, easily understood expectations and boundaries for children.
- To meet the developmental needs of the child while encouraging creativity, self-expression and the building of confidence.
